NUT AND BOLT CUTTER

Type N

The Carolus nut and bolt clipper is the most powerful cutter on the market. Finely tempered steel jaws, rigidly clamped between drop forge steel points with long leverage handles enable it to cut easily and quickly. It is furnished with choice of three types of cutting jaw, as illustrated; the straight cut, straight and end cut, and straight end cut with nut splitter If for any reason due to misuse jaws are injured, they can be replaced at a nominal expense.

Type A

Type B
